

THANKS

On this page we gave our thanks to the following companies, who helped us in our project to purchase a digital projector. Like it or not, Digital is the future, and we needed to be able to project digital images in order to keep pace with the clubs we competed against. We held a bring & buy/auction sale on 2nd November 2010 when we raised sufficient funds for this project. **See Archived Club News 2010 - 2011 for results of the sale and details of the projector and laptop that we were able to purchase.**
